Dear Mr. Belobrković,

Thank you for your partnership with the American Embassy for the Movement of the Third Age during 2010 and 2011. We were very impressed with your positive energy and participant's enthusiasm about the program.

Serbia is a country which takes sports seriously and is working hard to support healthy living among all ages. Raising awareness among senior citizens and supporting of health screenings and healthy living is a topic that is important.

We sincerely believe that projects such as "Olympiad of Sport, Health and Culture for the Third Age" are of great importance and benefit for Serbia, which is why we hope that Movement of the Third Age will continue this program.

I wish you all the best in your organization's future.

Sincerely,

  
Ryan Rowlands  
Public Affairs Officer
